

# FISH TERMINOLOGIES

## Maritime Fixtures and Fittings Thesaurus

Report Format: Hierarchical listing - alpha

Notes: For the recording of ships fixtures and fittings.

Date: February 2019

## ACCESSWAY

- SN Means by which access is enabled onto, into and through a vessel. Use more specific narrow terms.
- CL SHIP FITTINGS
- NT COMPANION WAY  
DOORWAY  
HATCHWAY  
HINGED DOOR DOORWAY  
INSPECTIONWAY  
JACOBS LADDER  
LADDERWAY  
SLIDING DOOR DOORWAY

## ADMIRALTY ANCHOR

- SN A design of stockless anchor favoured by the Admiralty.
- CL SHIP FITTINGS
- BT ANCHOR

## ADMIRALTY PATTERN ANCHOR

- SN An anchor with a fixed shank and arms, the stock of the anchor being at right angles to the arms.
- CL SHIP FITTINGS
- BT ANCHOR

## AERIAL

- SN A metal structure used to transmit and receive radio signals.
- CL SHIP FITTINGS
- BT COMMUNICATIONS EQUIPMENT

## AFTERCASTLE

- SN Castling set above the aftercastle deck at the stern of a vessel.
- CL SHIP STRUCTURE
- BT CASTLING

## AFTERCASTLE DECK

- SN The first deck in castling at the stern of a vessel, usually above the upper deck. The equivalent of the quarter deck in later construction.
- CL SHIP STRUCTURE
- BT DECK

## ALDIS LAMP

- SN A handheld lamp used to send morse code messages ship-to-ship or ship-to-shore. The lamp and its reflector can be covered/uncovered by a trigger operated shutter.
- CL SHIP FITTINGS
- BT SIGNALLING LAMP

## ANCHOR

- UF Anchor Stock
- SN A heavy implement, now usually made of metal, designed to be dropped from a vessel and embedded in the seabed to hold the vessel in a desired position.
- CL SHIP FITTINGS
- NT ADMIRALTY ANCHOR  
ADMIRALTY PATTERN ANCHOR  
CLOSE STOWING ANCHOR  
KILLICK  
MUSHROOM ANCHOR  
PLOUGH ANCHOR  
STOCKLESS ANCHOR

## STONE ANCHOR

- Anchor Cable
- USE **CABLE**

- Anchor Chain
- USE **CABLE**

## ANCHOR DAVIT

- SN A davit used to raise the flukes of the anchor to the top of the bow.
- CL SHIP FITTINGS
- BT DAVIT

## Anchor Stock

- USE **ANCHOR**

## ANIMAL HIDE SKIN

- SN A hull covering formed from a patchwork of animal skins usually stitched and bound.
- CL SHIP STRUCTURE
- BT OUTER HULL SKIN

## ANODE

- SN A terminal attached to the metal or sheathed hull of a ship from which a charge flows to inhibit corrosion.
- CL SHIP FITTINGS
- NT SACRIFICIAL ANODE

## ANTI BOARDING NETTING

- SN Netting forming a horizontal barrier of fixed open work. Found across castle decks and waist in early forms of construction.
- CL SHIP FITTINGS

## APRON (MARITIME)

- SN A curved timber, fixed behind the lower section of the stem directly above the leading end of the keel.
- CL SHIP STRUCTURE
- BT FRAMING COMPONENTS
- NT LOWER APRON PIECE  
UPPER APRON PIECE

## APRON KNEE

- SN An angled piece of timber connecting the apron to the frame of the vessel.
- CL SHIP STRUCTURE
- BT KNEE

## ARMoured HULL

- SN A hull which has been reinforced by the addition of armour plating.
- CL SHIP STRUCTURE
- BT HULL

## ATHWARTSHIPS SUPPORT

- SN Any rigging used to give support to the masts across the width of the vessel.
- CL SHIP FITTINGS
- BT STANDING RIGGING
- NT SHROUD

## AWNING

- SN A cover, usually made of canvas, fixed to, or fitted over, raised support.
- CL SHIP FITTINGS

## BACKREST BENCH

- SN A long seat with a back but without armrests.  
 CL SHIP FITTINGS  
 BT BENCH
- BACKSTAY**
- SN A rope or wire which supports a mast against the forward thrust of the sails. Backstays stretch from the mast head to either side of the ship or to the channels.  
 CL SHIP FITTINGS  
 BT STAY
- BADGE**
- SN An ornament placed on the outside of the vessel, usually depicting its name and crest.  
 CL SHIP FITTINGS  
 BT ORNAMENTS AND MOULDINGS
- BALLAST**
- UF Metal Ballast  
 Stone Ballast  
 SN Heavy material, usually stone, gravel or iron, placed in the holds of a vessel in order to lower its centre of gravity and provide stability when no cargo is being carried.  
 CL SHIP FITTINGS  
 BT STABILIZING FITTINGS
- BARK SKIN**
- SN A hull covering made from the bark of trees, usually stitched and bound.  
 CL SHIP STRUCTURE  
 BT OUTER HULL SKIN
- BATTERY**
- SN A device producing electrical energy used to power a vessel's engines, particularly submarines when submerged.  
 CL SHIP FITTINGS  
 BT ENGINE POWER SOURCE
- BEAM (MARITIME)**
- SN A transverse member of a vessel's frame used to support a deck.  
 CL SHIP STRUCTURE  
 BT FRAMING COMPONENTS  
 NT CROSS BEAM  
 DECK BEAM  
 FORKED BEAM  
 SILL BEAM
- BED**
- SN A piece of furniture, usually equipped with a mattress and covers, for sleeping or resting on.  
 CL SHIP FITTINGS  
 BT FURNITURE  
 NT BUNK  
 HAMMOCK
- BELAYING GEAR**
- SN Equipment used for securing ropes.  
 CL SHIP FITTINGS  
 NT BELAYING PIN  
 CLEAT
- BELAYING PIN**
- SN A short bar of wood, brass or iron used to secure a rope.  
 CL SHIP FITTINGS
- BT BELAYING GEAR
- BELFRY**
- SN A housing for a vessel's bell. Bells were used to announce the time every half hour and as a warning signal in fog or during emergencies.  
 CL SHIP FITTINGS  
 BT SIGNALLING EQUIPMENT
- BELL**
- SN A bell used to announce the time on board a vessel, and as a warning signal in fog and during emergencies.  
 CL SHIP FITTINGS  
 BT SIGNALLING EQUIPMENT
- BENCH**
- SN A long seat usually without a back. Often used to refer to a seat aboard a small boat.  
 CL SHIP FITTINGS  
 BT FURNITURE  
 NT BACKREST BENCH
- BILGE KEEL**
- SN An external fin usually made from plates and angle bars riveted to the hull and designed to reduce roll and provide additional strength to a vessel's hull.  
 CL SHIP FITTINGS  
 BT KEEL  
 CL SHIP STRUCTURE  
 BT KEEL
- BILLET HEAD**
- SN Carved ornamentation at the bow of a vessel which does not have a figurehead.  
 CL SHIP FITTINGS  
 BT BOW DECORATION
- BINNACLE**
- UF Bittacle  
 SN A short stand of wood or metal in which the compass is suspended, usually in gimbals, allowing it to remain horizontal regardless of the vessel's movement.  
 CL SHIP FITTINGS  
 BT PILOTING EQUIPMENT  
 RT COMPASS
- BITT PIN**
- SN A pin fitted through a cable bitt to prevent the cable from coming off.  
 CL SHIP STRUCTURE
- Bittacle
- USE **BINNACLE**
- BLINDAGE**
- SN A series of screens which could be erected along the waist of a ship to protect the crew from enemy fire.  
 CL SHIP STRUCTURE  
 BT SUPERSTRUCTURE
- BLOCK**
- SN A pulley, comprising a shell, sheave and pin, through which a rope passes. Blocks are used for various purposes but particularly to increase the mechanical power of ropes used in working

the sails.

CL SHIP FITTINGS  
BT RIGGING FITTINGS  
NT DEAD EYE  
DOUBLE BLOCK  
FIDDLE BLOCK  
JEWEL BLOCK  
LEAD BLOCK  
QUADRUPLE BLOCK  
SHOE BLOCK  
SHOULDER BLOCK  
SINGLE BLOCK  
SISTER BLOCK  
SNATCH BLOCK  
TRIPLE BLOCK

#### BOAT DAVIT

SN A davit used for raising and lowering boats carried on board.  
CL SHIP FITTINGS  
BT DAVIT

#### BOILER

SN A tank in which water is heated. In sailing vessels the boiler was used for hot water and domestic purposes. In steamships a boiler was used to generate steam under pressure to provide motive power to drive the engines.  
CL SHIP FITTINGS  
BT ENGINE POWER SOURCE

#### BOLT

SN A metal pin, often with a screw thread and used in conjunction with a nut.  
CL SHIP STRUCTURE  
BT FASTENINGS  
NT CLENCHED BOLT  
HEXAGONAL HEAD BOLT  
PAN HEAD BOLT  
ROUND HEAD BOLT  
SQUARE HEAD BOLT

#### BOLT ROPE

SN A rope sewn around the edge of a sail to prevent the canvas from fraying or tearing.  
CL SHIP FITTINGS  
BT CORDAGE

#### BONAVENTURE COURSE

SN A square sail set on the lower yard of a bonaventure mast in older sailing vessels.  
CL SHIP FITTINGS  
BT COURSE  
NT BONAVENTURE LATEEN COURSE

#### BONAVENTURE GAFF

SN A gaff mounted on a bonaventure mast.  
CL SHIP STRUCTURE  
BT GAFF

#### BONAVENTURE GAFF COURSE

SN A fore and aft sail set on a gaff on the bonaventure mast in older sailing vessels.  
CL SHIP FITTINGS  
BT FORE AND AFT SAIL

#### BONAVENTURE GAFF TOPSAIL

SN A fore and aft sail, set above the course on the

bonaventure mast of older sailing vessels.

CL SHIP FITTINGS  
BT GAFF TOPSAIL

#### BONAVENTURE LATEEN COURSE

SN A fore and aft sail set on the lowest yard of a bonaventure mast on older sailing vessels.  
CL SHIP FITTINGS  
BT BONAVENTURE COURSE

#### BONAVENTURE LOWER TOPSAIL

SN The lower topsail set on a bonaventure mast on older sailing vessels.  
CL SHIP FITTINGS  
BT LOWER TOPSAIL

#### BONAVENTURE MAST

SN On older sailing vessels, the fourth mast.  
CL SHIP STRUCTURE  
BT MAST

#### BONAVENTURE ROYAL

SN A square sail set above the topgallant on a bonaventure mast on older sailing vessels.  
CL SHIP FITTINGS  
BT ROYAL

#### BONAVENTURE TOP YARD

SN A yard mounted on the topmast on a bonaventure mast on older sailing vessels.  
CL SHIP STRUCTURE  
BT BONAVENTURE YARD

#### BONAVENTURE TOPGALLANT

SN That part of a mast mounted above the topmast on a bonaventure mast in older sailing vessels.

#### BONAVENTURE TOPGALLANT YARD

SN A yard mounted on the topgallant mast on a bonaventure mast on older sailing vessels.  
CL SHIP STRUCTURE  
BT BONAVENTURE YARD

#### BONAVENTURE UPPER TOPSAIL

SN The upper topsail set on a bonaventure mast on older sailing vessels.  
CL SHIP FITTINGS  
BT UPPER TOPSAIL

#### BONAVENTURE YARD

SN A yard mounted on a bonaventure mast. Use more specific type where known.  
CL SHIP STRUCTURE  
BT YARD  
NT BONAVENTURE TOP YARD  
BONAVENTURE TOPGALLANT YARD

#### BOOBY HATCH

SN A hatch, usually with a sliding cover which allows access to a storeroom or locker, or on smaller craft to the accommodation.  
CL SHIP STRUCTURE  
BT HATCH

#### BOOM

SN A spar used to secure, and stretch out, the bottom of a sail.  
CL SHIP STRUCTURE  
BT SPAR

NT	JIB BOOM OUTRIGGER BOOM	BT	KEELSON
<b>BOTTOM PLANK</b>		<b>BRACE</b>	
SN	A plank laid fore and aft in the bottom of a vessel to take the weight of the crew or cargo off a vessel's planking and timbers.	SN	A rope or wire attached by a block to a yard arm and used to adjust the yard in a horizontal plane.
CL	SHIP STRUCTURE	CL	SHIP FITTINGS
BT	OUTER HULL PLANK	BT	RUNNING RIGGING
<b>BOW DECORATION</b>		<b>BRACKET KNEE PLATE</b>	
SN	Ornamentation used to enhance the appearance of the front, or bow, of a vessel.	SN	A flat plate, triangular in shape, used to join a frame and a beam.
CL	SHIP FITTINGS	CL	SHIP STRUCTURE
BT	DECORATION	<b>BREADTH RIDER</b>	
NT	BILLET HEAD FIDDLEHEAD FIGUREHEAD	SN	A additional timber mounted across the breadth of a vessel to strengthen the structure.
<b>BOW DOOR</b>		CL	SHIP STRUCTURE
SN	A door in the front, or bow, of a vessel used for loading and unloading. Often found on ferries.	BT	RIDER
CL	SHIP FITTINGS	<b>BREASTHOOK</b>	
BT	DOOR	SN	A curved timber bolted across the inside of a vessel's stem to strengthen the fore part of the vessel and hold the bow and sides together.
<b>BOW RAIL</b>		CL	SHIP STRUCTURE
SN	A railing running around the front of a vessel.	BT	LODGING KNEE
CL	SHIP STRUCTURE	<b>BRICK OVEN HOUSING</b>	
BT	RAILS AND FIXTURES	CL	SHIP FITTINGS
<b>BOW THRUSTER UNIT</b>		BT	OVEN HOUSING
SN	A propeller situated in a transverse tunnel, passing through the hull near the bow of a vessel.	<b>BRIDGE</b>	
CL	SHIP FITTINGS	SN	An elevated platform above the upper deck of a vessel from which it is navigated and from which all activities on the vessel can be monitored and controlled by the officer of the watch.
BT	PROPELLER	CL	SHIP STRUCTURE
<b>BOWCASTLE DECK</b>		NT	DOCKING BRIDGE NAVIGATION BRIDGE
SN	A second deck in castling at the bow of a vessel above the level of the forecastle deck.	<b>BRIDGE TELEGRAPH</b>	
CL	SHIP STRUCTURE	SN	A device used by the captain or officer of the watch to communicate with the engine room or other parts of the vessel.
BT	DECK	CL	SHIP STRUCTURE
<b>BOWLINE</b>		<b>BULKHEAD</b>	
SN	A rope, that when hauled in, keeps the weather edge of a square sail taut and steady when a vessel is close-hauled to the wind.	SN	An upright partition separating compartments within a vessel.
CL	SHIP FITTINGS	CL	SHIP STRUCTURE
BT	RUNNING RIGGING	NT	PARTITIONING
<b>BOWSPRIT</b>		<b>BULKHEAD LAMP</b>	
SN	A spar projecting over the bow of a vessel to provide the means for staying the fore topmast and from which the jibs are set.	UF	Electric Bulkhead Lamp
CL	SHIP STRUCTURE	SN	A lamp fixed to the bulkhead providing internal lighting.
BT	SPRIT	CL	SHIP FITTINGS
<b>BOX KEEL</b>		BT	LAMP
SN	A keel made from plates in the form of a box. The plates being joined by riveting to angles bars.	<b>BULWARK</b>	
CL	SHIP STRUCTURE	SN	The portion of a vessel's side above the level of the deck.
BT	KEEL	CL	SHIP STRUCTURE
CL	SHIP FITTINGS	BT	SUPERSTRUCTURE
BT	KEEL	NT	FLOATING BULWARK
<b>BOX KEELSON</b>		<b>BUNK</b>	
SN	A keelson made from plates in the form of a box. The plates being joined by riveting to angles bars.	SN	A sleeping berth.
CL	SHIP STRUCTURE	CL	SHIP FITTINGS
		BT	BED

## BUNTLINE

- SN A rope attached to the footrope of a square sail used to spill the wind out of the sail for reefing or hoist the sail to the yard for furling.
- CL SHIP FITTINGS
- BT RUNNING RIGGING

## BUTT JOINT

- SN A joint in which planks or plates are joined end to end.
- CL SHIP STRUCTURE
- BT JOINT
- NT DOWELLED BUTT JOINT

## CABLE

- UF Anchor Cable  
Anchor Chain  
Chain
- SN Originally any large hemp or wire rope or chain but now more normally, one to which the anchor is secured.
- CL SHIP FITTINGS
- BT CORDAGE

Candle Lantern

- USE LANTERN

## CANT FRAME

- SN A piece of timber set at an oblique angle rather than at right angles to the keel. Cant frames are found at both ends of the vessel, those at the bows incline toward the stem post and those at the stern incline toward the sternpost.
- CL SHIP STRUCTURE
- BT FRAME

## CAPSTAN

- SN An upright cylindrical barrel revolving around a spindle used to wind cable on board ship. The capstan was turned manually by inserting bars into the drumhead at the top.
- CL SHIP FITTINGS
- BT LIFTING GEAR
- NT FORE JEER CAPSTAN  
MAIN JEER CAPSTAN

## CARLING

- SN A short piece of timber ranging fore and aft between beams to strengthen the vessel.
- CL SHIP STRUCTURE
- BT FRAMING COMPONENTS

## CARVEL PLANK

- SN A plank used in carvel construction, where the edges of the planks are placed edge to edge and not overlapped (as in clinker construction).
- CL SHIP STRUCTURE
- BT OUTER HULL PLANK

## CAST METAL OVEN HOUSING

- CL SHIP FITTINGS
- BT METAL OVEN HOUSING

## CASTLING

- SN Panels erected around the fighting platforms of a vessel to provide protection.
- CL SHIP STRUCTURE
- BT SUPERSTRUCTURE

- NT ATERCASTLE  
FORECASTLE

## CAT DAVIT

- SN A davit used to hoist the anchor from the waterline to the billboard.
- CL SHIP FITTINGS
- BT DAVIT

## CATHEAD

- SN A short beam projecting over the bow of a vessel at the side of the bow sprit. The cathead held a sheave which took the tackle used to raise the anchor.
- CL SHIP STRUCTURE
- BT SKELETON

## CATHEAD SUPPORTER

- SN A hanging knee used to support the cathead.
- CL SHIP STRUCTURE
- BT HANGING KNEE

## CAULDRON

- UF Cauldron Cover  
Cauldron Lid
- SN A large pot used for boiling.
- CL SHIP FITTINGS
- BT FURNITURE

Cauldron Cover

- USE CAULDRON

Cauldron Lid

- USE CAULDRON

## CAULKING

- SN Fibres driven into the seams of a vessel's timbers and covered with pitch or resin to make the vessel watertight.
- CL SHIP FITTINGS
- BT WATERPROOFING FITTINGS
- NT HAIR  
OAKUM

## CEILING PLANK

- SN A plank forming part of the floor or walls of a hold.
- CL SHIP STRUCTURE
- BT INNER HULL PLANK

## CENTRE LINE LIFT

- CL SHIP FITTINGS
- BT LIFT

## CENTREBOARD

- SN A board which can be lowered in a shallow draught vessel to increase the vessel's lateral area and keel thus increasing the resistance to leeway.
- CL SHIP FITTINGS
- BT STABILIZING FITTINGS

Chain

- USE CABLE

## CHAIN PLATE

- SN A metal bar fixed below the chainwales to which the shrouds are secured.
- CL SHIP FITTINGS

BT FASTENER

#### CHAIN PUMP

SN A pump consisting of an endless chain fitted with valves, operated by a roller or winch manned by several men. A chain pump could move large quantities of water in a short time.

CL SHIP FITTINGS

BT PUMP

#### CHAIN WALE

UF Channel  
Channel Wale

SN A broad plank, projecting horizontally from the side of a vessel, used to spread the shrouds and provide better support for the mast.

CL SHIP STRUCTURE

BT WALE

#### CHAIR

SN A single seat with a back and, sometimes, arms.

CL SHIP FITTINGS

BT FURNITURE

Channel

USE CHAIN WALE

Channel Wale

USE CHAIN WALE

#### CHOCK

SN A wooden wedge used to prevent any stowed article from shifting whilst the vessel is in motion.

CL SHIP STRUCTURE

BT SKELETON

#### CLEAT

SN A bar, made of wood or metal, attached to the insides of the gunwales to which the sheets are fastened when a vessel is under sail.

CL SHIP FITTINGS

BT BELAYING GEAR

#### CLENCHED BOLT

SN A bolt, the end of which has been bent over to secure it once it has passed through the timbers. Predates the threaded bolt.

CL SHIP STRUCTURE

BT BOLT

#### CLENCHED NAIL

SN A nail, the end of which has been bent over to secure it once it has passed through the timbers.

CL SHIP STRUCTURE

BT NAIL

#### CLENCHED SPIKE

SN A spike, the end of which has been bent over to secure it once it has passed through the timbers.

CL SHIP STRUCTURE

BT SPIKE

Clew Line

USE CLUE LINE

#### CLINKER PLANK

SN A plank used in the construction of a clinker built vessel where the planks overlap.

CL SHIP STRUCTURE

BT OUTER HULL PLANK

#### CLOSE STOWING ANCHOR

SN An anchor with the stock in the same plane as the arms enabling it to be stowed flat on an anchor bed.

CL SHIP FITTINGS

BT ANCHOR

#### CLUE LINE

UF Clew Line

SN A rope attached to the clues of a square sail, other than a course, and used to pull the clues up and inwards when furling the sail.

CL SHIP FITTINGS

BT RUNNING RIGGING

#### CODE FLAG

SN A flag, usually coloured or patterned, which can be used to convey messages using a standard code. Each code flag's pattern or colour is different and can be used to represent a whole message, or a single word or letter in a message.

CL SHIP FITTINGS

BT FLAG

NT CODE PENNANT

#### CODE PENNANT

SN A triangular flag, usually coloured or patterned, which can be used to convey messages using a standard code. Each code flag's pattern or colour is different and can be used to represent a whole message, or a single number in a message.

CL SHIP FITTINGS

BT CODE FLAG

#### COMMUNICATIONS EQUIPMENT

SN Equipment used to communicate from ship-to-ship, ship-to-shore or ship-to-aircraft.

CL SHIP FITTINGS

NT AERIAL

RADIO

TELEGRAPH

#### COMPANION LADDER

SN Traditionally a ladder leading from the main deck to the quarterdeck. Nowadays used to mean any ladder leading from one deck to another.

#### COMPANION WAY

UF Companion Way Stairway

SN A staircase or ladder allowing movement between decks.

CL SHIP FITTINGS

BT ACCESSWAY

#### COMPANION WAY COVER

UF Companion Way Grating

SN A hatch or grating covering the entrance to a companion way.

Companion Way Grating

USE COMPANION WAY COVER

Companion Way Stairway

USE COMPANION WAY

#### COMPARTMENT

SN Any area, onboard a vessel, between the transverse bulkheads.

CL SHIP STRUCTURE  
BT DECKS AND COMPARTMENTS  
NT GALLEY

#### COMPASS

SN An instrument used for navigation and orientation showing magnetic or true north, and bearings.  
CL SHIP FITTINGS  
BT PILOTING EQUIPMENT  
NT GYRO COMPASS  
MAGNETIC COMPASS  
RT BINNACLE

#### COMPOUND RECIPROCATING ENGINE

CL SHIP FITTINGS  
BT RECIPROCATING ENGINE

#### CONNING TOWER

SN The superstructure of a submarine or warship from which the vessel can be piloted.  
CL SHIP STRUCTURE  
BT SUPERSTRUCTURE

#### CORDAGE

SN The collective term for all ropes and lines carried on board a vessel.  
CL SHIP FITTINGS  
NT BOLT ROPE  
CABLE  
CRINGLE  
LANYARD  
ROBAND  
ROPE

#### COUNTER

SN The arched section of the vessel curving aft and upwards from the wing transom and buttock to the stern above.  
CL SHIP STRUCTURE  
BT SKELETON

#### COUNTER RAIL

SN A rail running around the stern of a vessel.

#### COURSE

SN A sail attached to the lower yards. Use more specific term.  
CL SHIP FITTINGS  
BT SQUARE SAIL  
NT BONAVENTURE COURSE  
FORE COURSE  
MAIN COURSE  
MIZZEN COURSE  
SPRIT COURSE

#### COVERING BOARD

SN A board placed along the top edges of upper hull planking to close the spaces between the inner and outer hull planking between the frames.  
CL SHIP FITTINGS  
BT WATERPROOFING FITTINGS

#### CRINGLE

SN A small loop of rope, often with a metal ring or thimble, worked into the bolt rope of a sail. Cringles are used to hook in the tack and sheet tackles when a sail is reefed.  
CL SHIP FITTINGS  
BT CORDAGE

#### CROSS BEAM

SN A heavy timber running across the bits in the bows of a vessel.  
CL SHIP STRUCTURE  
BT BEAM (MARITIME)

#### CROSS PIECE

SN A bar or timber connecting two bits or knight-heads.  
CL SHIP STRUCTURE

#### CRUTCH

SN A rising knee fitted in the stern to connect the ends of the stringers and other longitudinal members.  
CL SHIP STRUCTURE  
BT RISING KNEE

#### DAGGERBOARD

SN A drop keel, usually of wood or metal, which can be raised or lowered through a slot in a vessel's keel to increase the draught in order to reduce leeway.  
CL SHIP FITTINGS  
BT STABILIZING FITTINGS

#### DAVIT

SN A small crane, derrick or pair of curved pillars, usually fitted on the deck close to the side of a vessel, used for raising and lowering lifeboats, anchors etc.  
CL SHIP FITTINGS  
BT LIFTING GEAR  
NT ANCHOR DAVIT  
BOAT DAVIT  
CAT DAVIT  
FISH DAVIT

#### DEADEYE

SN A circular block, usually made from lignum vitae, pierced with three holes and grooved around the circumference used to secure the end of a shroud to a chain plate.  
CL SHIP FITTINGS  
BT BLOCK

#### DEADLIGHT

SN A hinged plate, usually of brass, iron or wood, inboard of a ship's scuttle or port, which can be lowered and secured with a butterfly nut to prevent damage to glass in heavy weather or conceal internal light from enemy vessels.  
CL SHIP FITTINGS  
BT PORTHOLE LID

#### DEADWOOD

SN A block of timber, in both the bow and stern of a vessel, positioned just above the keel where the hull is narrow and the angle of the timbers at its most acute.  
CL SHIP STRUCTURE  
BT FRAMING COMPONENTS

#### DECK

UF Decking  
SN A floor running the length of a vessel or only part of it, connecting the sides and forming the roof of the compartments or holds.

CL SHIP STRUCTURE  
 BT DECKS AND COMPARTMENTS  
 NT AFTERCASTLE DECK  
 BOWCASTLE DECK  
 LOWER DECK  
 MAIN DECK  
 MIDDLE DECK  
 ORLOP DECK  
 POOP DECK  
 QUARTER DECK  
 STERNCASTLE DECK  
 UPPER DECK

**DECK BEAM**

SN A beam running athwartships forming part of a vessel's structure and supporting the deck.  
 CL SHIP STRUCTURE  
 BT BEAM (MARITIME)

**DECK BEAM BRACE**

SN A brace used to support and strengthen a deck beam.  
 CL SHIP STRUCTURE  
 BT FRAMING COMPONENTS

**DECK CLAMP**

SN A timber fastened to the inside of a wooden vessel's side forming a support for the end of a deck beam.  
 CL SHIP STRUCTURE  
 BT FRAMING COMPONENTS

**DECK HOUSE**

SN A cabin erected on the deck of a vessel.  
 CL SHIP STRUCTURE  
 BT SUPERSTRUCTURE

**DECK PLANK**

SN A plank forming part of the deck.

**DECK PLATE**

SN A metal plate forming part of the deck.

**DECK TRANSOM**

SN A beam fastened across the stern post to strengthen the stern and give it shape. The deck transom is used to hold the ends of the lower deck planking.  
 CL SHIP STRUCTURE  
 BT TRANSOM

**DECKHEAD LAMP**

UF Electric Deckhead Lamp  
 SN A lamp fitted to the underside of the deck above to provide internal lighting in a vessel.  
 CL SHIP FITTINGS  
 BT LAMP

Decking

USE **DECK**

**DECLIGHT LAMP**

UF Electric Decklight Lamp  
 SN A lamp fitted above head height to provide external lighting on a vessel.  
 CL SHIP FITTINGS  
 BT LAMP

DECKS AND COMPARTMENTS

SN The horizontal platforms and internal spaces on board a vessel.  
 CL SHIP STRUCTURE  
 NT COMPARTMENT DECK

**DECORATION**

SN Carved elements and mouldings designed to make a vessel more attractive.  
 CL SHIP FITTINGS  
 BT ORNAMENTS AND MOULDINGS  
 NT BOW DECORATION  
 STERN DECORATION

**DERRICK**

SN A spar, fixed on board a vessel and pivoted at the lower end, fitted with a purchase and used like a crane for hoisting cargo and other heavy weights.  
 CL SHIP FITTINGS  
 BT LIFTING GEAR

**DIAPHRAGM PUMP**

CL SHIP FITTINGS  
 BT PUMP

**DIMINISHING STRAKE**

SN A plank, forming part of the hull of a wooden vessel, which is thinner at one end.  
 CL SHIP STRUCTURE  
 BT STRAKE

**DOCKING BRIDGE**

SN A bridge from which the captain, or officer of the watch, can supervise the docking of a vessel.  
 CL SHIP STRUCTURE  
 BT BRIDGE

**DOOR**

SN A barrier used to close an opening, usually hinged and often hung within a supporting frame.  
 CL SHIP FITTINGS  
 NT BOW DOOR  
 HINGED DOOR  
 SLIDING DOOR

**DOORWAY**

SN An opening between two spaces, filled by a door.  
 CL SHIP FITTINGS  
 BT ACCESSWAY

**DOUBLE BLADED PADDLE**

SN A paddle with a blade on either end. Usually used to propel a canoe or kayak.  
 CL SHIP FITTINGS  
 BT PADDLE

**DOUBLE BLOCK**

SN A single shelled block containing two sheaves revolving on the same pin, allowing two ropes of equal thickness to be worked through it.  
 CL SHIP FITTINGS  
 BT BLOCK

**DOWELLED BUTT JOINT**

SN A butt joint which is fixed using dowels inserted into the ends of the planks.  
 CL SHIP STRUCTURE

BT BUTT JOINT

#### DOWNHAUL

SN A rope used for hauling down a jib or staysail when shortening sail.

CL SHIP FITTINGS

BT ROPE

Electric Bulkhead Lamp

USE **BULKHEAD LAMP**

Electric Deckhead Lamp

USE **DECKHEAD LAMP**

Electric Decklight Lamp

USE **DECKLIGHT LAMP**

Electric Handheld Lamp

USE **HANDHELD LAMP**

Electric Motor

USE **ENGINE**

Electric Oven

USE **OVEN**

#### ENGINE

UF Electric Motor

CL SHIP FITTINGS

BT MECHANICAL PROPULSION SYSTEM

NT INTERNAL COMBUSTION ENGINE

RECIPROCATING ENGINE

TURBINE ENGINE

#### ENGINE EXHAUST SYSTEM

CL SHIP FITTINGS

NT EXHAUST PIPE  
FUNNEL

#### ENGINE POWER SOURCE

CL SHIP FITTINGS

NT BATTERY  
BOILER  
FURNACE  
REACTOR

#### ENGINE ROOM TELEGRAPH

SN A device by which the engine room can communicate with the bridge or other parts of the vessel.

CL SHIP FITTINGS

BT TELEGRAPH

#### ENSIGN

SN The nation flag flown on a vessel.

CL SHIP FITTINGS

BT FLAG

#### ENSIGN STAFF

SN The flagstaff on which the ensign is flown.

CL SHIP FITTINGS

BT FLAGSTAFF

#### ESCUTCHEON

SN The area in the middle of the stern of a vessel where the name and port of registry are inscribed.

CL SHIP FITTINGS

BT ORNAMENTS AND MOULDINGS

#### EXHAUST PIPE

CL SHIP FITTINGS

BT ENGINE EXHAUST SYSTEM

#### EXTERNAL FRAME

SN The main skeleton of a vessel to which the outer hull is attached.

CL SHIP STRUCTURE

BT FRAME

#### EYE BOLT

SN A bolt with an eye in the end to which the blocks of purchases can be hooked or a line secured.

CL SHIP FITTINGS

BT FASTENER

#### FAIRLEAD

SN A device on a deck or spur, often in the form of a block, used to guide a rope and prevent it from cutting or chafing.

CL SHIP FITTINGS

BT RIGGING FITTINGS

#### FALSE KEEL

SN An additional keel secured on the outside of the main keel to increase a vessel's draught. In older vessels false keels were also used to protect the vessel's hull in the event of running aground.

CL SHIP FITTINGS

BT KEEL

CL SHIP STRUCTURE

BT KEEL

#### FALSE STERNPOST

SN An additional timber clamped to the sternpost to reinforce it.

CL SHIP STRUCTURE

BT STERNPOST

#### FASHION PIECE

SN The aftermost timber in the underwater body of a wooden vessel which forms the shape of the stern.

CL SHIP STRUCTURE

BT SKELETON

#### FASHION PLATE

SN The aftermost plate in the underwater body of a metal vessel which forms the shape of the stern.

CL SHIP STRUCTURE

BT SKELETON

#### FASTENER

SN An object to fasten, bind or join one item to another. Use more specific term where known.

CL SHIP FITTINGS

BT RIGGING FITTINGS

NT CHAIN PLATE

EYE BOLT

TURNBUCKLE

#### FASTENINGS

SN The means by which a ship structure is held together. Use appropriate narrow terms.

#### FENDER

SN An object, made from old cable, matting, rubber or plastic, which hangs over the side of a vessel to protect it against impact.  
CL SHIP FITTINGS  
BT MOORING GEAR

#### FIDDLE BLOCK

SN A single shelled block containing two sheaves carried on separate pins one on top of the other. The lower portion of the shell is narrower and the whole lies flatter to a mast than a DOUBLE BLOCK.  
CL SHIP FITTINGS  
BT BLOCK

#### FIDDLEHEAD

SN A carved stemhead in the form of a scrollturning aft and inwards like the head of a violin. Originally adopted by small sailing vessels with no figurehead as a piece of bow decoration.  
CL SHIP FITTINGS  
BT BOW DECORATION

#### FIGUREHEAD

SN An ornamental carved and painted figure erected on the bow of a vessel as a decorative emblem. Usually signifying some aspect of the vessel's name or function.  
CL SHIP FITTINGS  
BT BOW DECORATION

#### FILLET

SN A piece of wood used to strengthen a joint or serve as a support to a surface.

#### FLOATING BULWARK

SN A section of the bulwark which is hinged allowing access onto the deck.  
CL SHIP STRUCTURE  
BT BULWARK

#### FLOOR RIDER

SN An additional timber used to provide support for a floor beam.  
CL SHIP STRUCTURE  
BT RIDER

#### FLOOR TIMBER

SN A plank forming part of a deck floor.  
CL SHIP STRUCTURE  
BT FRAME

#### FLYING JIB

SN The foremost of the sails set on a stay extending from the foremast to the jib boom or bow sprit.  
CL SHIP FITTINGS  
BT JIB

#### FLYING JIB BOOM

SN A continuation of the jib boom to the end of which

the tack of the flying jib is hauled.

CL SHIP STRUCTURE  
BT JIB BOOM

#### FOGHORN

SN A signalling device emitting a loud noise to warn shipping in foggy weather.  
CL SHIP FITTINGS  
BT SIGNALLING EQUIPMENT

#### FORE AND AFT SAIL

SN Any sail which is rigged so that the luff of the sail abuts the mast or is attached to a stay. The sail can be extended by a boom at the foot and a gaff at the head or by a single sprit or yard.
