FISH TERMINOLOGIES

Maritime Fixtures and Fittings Thesaurus

Report Format: Hierarchical listing - alpha

Notes: For the recording of ships fixtures and fittings.

Date: February 2020

ACCESSWAY

SN Means by w hich access is enabled onto, into and through a vessel. Use more specific narrow terms

CL SHIP FITTINGS

NT COMPANION WAY

DOORWAY

HATCHWAY

HINGED DOOR DOORWAY

INSPECTIONWAY

JACOBS LADDER

LADDERWAY

SLIDING DOOR DOORWAY

ADMIRALTY ANCHOR

SN A design of stockless anchor favoured by the Admiralty.

CL SHIP FITTINGS

BT ANCHOR

ADMIRALTY PATTERN ANCHOR

SN An anchor with a fixed shank and arms, the stock of the anchor being at right angles to the arms.

CL SHIP FITTINGS

BT ANCHOR

AERIAL

SN A metal structure used to transmit and receive radio signals.

CL SHIP FITTINGS

BT COMMUNICATIONS EQUIPMENT

AFTERCASTLE

SN Castling set above the aftercastle deck at the stern of a vessel.

CL SHIP STRUCTURE

BT CASTLING

AFTERCASTLE DECK

SN The first deck in castling at the stern of a vessel, usually above the upper deck. The equivalent of the quarter deck in later construction.

CL SHIP STRUCTURE

BT DECK

ALDIS LAMP

SN A handheld lamp used to send morse code messages ship-to-ship or ship-to-shore. The lamp and its reflector can be covered/uncovered by a trigger operated shutter.

CL SHIP FITTINGS

BT SIGNALLING LAMP

ANCHOR

UF Anchor Stock

SN A heavy implement, now usually made of metal, designed to be dropped from a vessel and embedded in the seabed to hold the vessel in a desired position.

CL SHIP FITTINGS

NT ADMIRALTY ANCHOR

ADMIRALTY PATTERN ANCHOR

CLOSE STOWING ANCHOR

KILLICK

MUSHROOM ANCHOR

PLOUGH ANCHOR

STOCKLESS ANCHOR

STONE ANCHOR

Anchor Cable

USE CABLE

Anchor Chain

USE CABLE

ANCHOR DAVIT

SN A davit used to raise the flukes of the anchor to the top of the bow.

CL SHIP FITTINGS

BT DAVIT

Anchor Stock

USE ANCHOR

ANIMAL HIDE SKIN

SN A hull covering formed from a patchw ork of animal skins usually stitched and bound.

CL SHIP STRUCTURE

BT OUTER HULL SKIN

ANODE

SN A terminal attached to the metal or sheathed hull of a ship from w hich a charge flow s to inhibit corrosion.

CL SHIP FITTINGS

NT SACRIFICIAL ANODE

ANTI BOARDING NETTING

SN Netting forming a horizontal barrier of fixed open w ork. Found across castle decks and w aist in early forms of construction.

CL SHIP FITTINGS

APRON (MARITIME)

SN A curved timber, fixed behind the low er section of the stem directly above the leading end of the keel.

CL SHIP STRUCTURE

BT FRAMING COMPONENTS

NT LOWER A PRON PIECE UPPER A PRON PIECE

APRON KNEE

SN An angled piece of timber connecting the apron to the frame of the vessel.

CL SHIP STRUCTURE

BT KNEE

ARMOURED HULL

SN A hull which has been reinforced by the addition of armour plating.

CL SHIP STRUCTURE

BT HULL

ATHWARTSHIPS SUPPORT

SN Any rigging used to give support to the masts across the width of the vessel.

CL SHIP FITTINGS

BT STANDING RIGGING

NT SHROUD

AWNING

SN A cover, usually made of canvas, fixed to, or fitted over, raised support.

CL SHIP FITTINGS

BACKREST BENCH

- SN A long seat with a back but without armrests.
- CL SHIP FITTINGS
- BT BENCH

BACKSTAY

- SN A rope or w ire w hich supports a mast against the forw ard thrust of the sails. Backstays stretch from the mast head to either side of the ship or to the channels.
- CL SHIP FITTINGS
- BT STAY

BADGE

- SN An ornament placed on the outside of the vessel, usually depicting its name and crest.
- CL SHIP FITTINGS
- BT ORNAMENTS AND MOULDINGS

BALLAST

- UF Metal Ballast
 - Stone Ballast
- SN Heavy material, usually stone, gravel or iron, placed in the holds of a vessel in order to low er its centre of gravity and provide stability when no cargo is being carried.
- CL SHIP FITTINGS
- BT STABILIZING FITTINGS

BARK SKIN

- SN A hull covering made from the bark of trees, usually stitched and bound.
- CL SHIP STRUCTURE
- BT OUTER HULL SKIN

BATTERY

- SN A device producing electrical energy used to pow er a vessel's engines, particularly submarines when submerged.
- CL SHIP FITTINGS
- BT ENGINE POWER SOURCE

BEAM (MARITIME)

- SN A transverse member of a vessel's frame used to support a deck.
- CL SHIP STRUCTURE
- BT FRAMING COMPONENTS
- NT CROSS BEAM DECK BEAM

FORKED BEAM

SILL BEAM

BED

- SN A piece of furniture, usually equipped with a mattress and covers, for sleeping or resting on.
- CL SHIP FITTINGS
- BT FURNITURE
- NT BUNK

HA MMOCK

BELAYING GEAR

- SN Equipment used for securing ropes.
- CL SHIP FITTINGS
- NT BELAYING PIN

CLEAT

BELAYING PIN

- SN A short bar of w ood, brass or iron used to secure a rope.
- CL SHIP FITTINGS

BT BELAYING GEAR

BELFRY

- SN A housing for a vessels bell. Bells were used to announce the time every half hour and as a warning signal in fog or during emergencies.
- CL SHIP FITTINGS
- BT SIGNALLING EQUIPMENT

BELL

- SN A bell used to announce the time on board a vessel, and as a warning signal in fog and during emergencies.
- CL SHIP FITTINGS
- BT SIGNALLING EQUIPMENT

BENCH

- SN A long seat usually without a back. Often used to refer to a seat athwart a small boat.
- CL SHIP FITTINGS
- BT FURNITURE
- NT BACKREST BENCH

BILGE KEEL

- SN An external fin usually made from plates and angle bars riveted to the hull and designed to reduce roll and provide additional strength to a vessel's hull.
- CL SHIP FITTINGS
- BT KEEL
- CL SHIP STRUCTURE
- BT KEEL

BILLET HEAD

- SN Carved ornamentation at the bow of a vessel which does not have a figurehead.
- CL SHIP FITTINGS
- BT BOW DECORATION

BINNACLE

- UF Bittacle
- SN A short stand of w ood or metal in w hich the compass is suspended, usually in gimbals, allow ing it to remain horizontal regardless of the vessel's movement.
- CL SHIP FITTINGS
- BT PILOTING EQUIPMENT
- RT COMPASS

BITT PIN

- SN A pin fitted through a cable bitt to prevent the cable from coming off.
- CL SHIP STRUCTURE

Bittacle

USE BINNACLE

BLINDAGE

- SN A series of screens w hich could be erected along the w aist of a ship to protect the crew from enemy fire.
- CL SHIP STRUCTURE
- BT SUPERSTRUCTURE

BLOCK

SN A pulley, comprising a shell, sheave and pin, through w hich a rope passes. Blocks are used for various purposes but particularly to increase the mechanical power of ropes used in w orking the sails.

CL SHIP FITTINGS

BT RIGGING FITTINGS

NT DEADEYE

DOUBLE BLOCK

FIDDLE BLOCK

JEWEL BLOCK

LEAD BLOCK

QUA DRUPLE BLOCK

SHOE BLOCK

SHOULDER BLOCK

SINGLE BLOCK

SISTER BLOCK

SNATCH BLOCK

TRIPLE BLOCK

BOAT DAVIT

SN A davit used for raising and low ering boats carried on board.

CL SHIP FITTINGS

BT DAVIT

BOILER

SN A tank in w hich w ater is heated. In sailing vessels the boiler w as used for hot w ater and domestic purposes. In steamships a boiler w as used to generate steam under pressure to provide motive pow er to drive the engines.

CL SHIP FITTINGS

BT ENGINE POWER SOURCE

BOLT

SN A metal pin, often with a screw thread and used in conjunction with a nut.

CL SHIP STRUCTURE

BT FASTENINGS

NT CLENCHED BOLT

HEXAGONAL HEAD BOLT

PAN HEAD BOLT

ROUND HEAD BOLT

SQUARE HEAD BOLT

BOLT ROPE

SN A rope sew n around the edge of a sail to prevent the canvas from fraying or tearing.

CL SHIP FITTINGS

BT CORDAGE

BONAVENTURE COURSE

SN A square sail set on the low er yard of a bonaventure mast in older sailing vessels.

CL SHIP FITTINGS

BT COURSE

NT BONA VENTURE LATEEN COURSE

BONAVENTURE GAFF

SN A gaff mounted on a bonaventure mast.

CL SHIP STRUCTURE

BT GAFF

BONAVENTURE GAFF COURSE

SN A fore and aft sail set on a gaff on the bonaventure mast in older sailing vessels.

CL SHIP FITTINGS

BT FORE AND AFT SAIL

BONAVENTURE GAFF TOPSAIL

SN A fore and aft sail, set above the course on the

bonventure mast of older sailing vessels.

CL SHIP FITTINGS

BT GAFF TOPSAIL

BONAVENTURE LATEEN COURSE

SN A fore and aft sail set on the low est yard of a bonaventure mast on older sailing vessels.

CL SHIP FITTINGS

BT BONA VENTURE COURSE

BONAVENTURE LOWER TOPSAIL

SN The low er topsail set on a bonaventure mast on older sailing vessels.

CL SHIP FITTINGS

BT LOWER TOPSAIL

BONAVENTURE MAST

SN On older sailing vessels, the fourth mast.

CL SHIP STRUCTURE

BT MAST

BONAVENTURE ROYAL

SN A square sail set above the topgallant on a bonaventure mast on older sailing vessels.

CL SHIP FITTINGS

BT ROYAL

BONAVENTURE TOP YARD

SN A yard mounted on the topmast on a bonaventure mast on older sailing vessels.

CL SHIP STRUCTURE

BT BONAVENTURE YARD

BONAVENTURE TOPGALLANT

SN That part of a mast mounted above the topmast on a bonaventure mast in older sailing vessels.

BONAVENTURE TOPGALLANT YARD

SN A yard mounted on the topgallant mast on a bonaventure mast on older sailing vessels.

CL SHIP STRUCTURE

BT BONAVENTURE YARD

BONAVENTURE UPPER TOPSAIL

SN The upper topsail set on a bonaventure mast on older sailing vessels.

CL SHIP FITTINGS

BT UPPER TOPSAIL

BONAVENTURE YARD

SN A yard mounted on a bonventure mast. Use more specific type w here know n.

CL SHIP STRUCTURE

BT YARD

NT BONA VENTURE TOP YARD
BONA VENTURE TOPGALLANT YARD

BOOBY HATCH

SN A hatch, usually with a sliding cover which allows access to a storeroom or locker, or on smaller craft to the accommodation.

CL SHIP STRUCTURE

BT HATCH

BOOM

SN A spar used to secure, and stretch out, the bottom of a sail.

CL SHIP STRUCTURE

BT SPAR

NT JIB BOOM OUTRIGGER BOOM

BOTTOM PLANK

- SN A plank laid fore and aft in the bottom of a vessel to take the w eight of the crew or cargo off a vessel's planking and timbers.
- CL SHIP STRUCTURE
- BT OUTER HULL PLANK

BOW DECORATION

- SN Ornamentation used to enhance the appearance of the front, or bow, of a vessel.
- CL SHIP FITTINGS
- BT DECORATION
- NT BILLET HEAD

FIDDLEHEA D

FIGUREHEAD

BOW DOOR

- SN A door in the front, or bow, of a vessel used for loading and unloading. Often found on ferries.
- CL SHIP FITTINGS
- BT DOOR

BOW RAIL

- SN A railing running around the front of a vessel.
- CL SHIP STRUCTURE
- BT RAILS AND FIXTURES

BOW THRUSTER UNIT

- SN A propeller situated in a transverse tunnel, passing through the hull near the bow of a vessel.
- CL SHIP FITTINGS
- BT PROPELLER

BOWCASTLE DECK

- SN A second deck in castling at the bow of a vessel above the level of the forecastle deck.
- CL SHIP STRUCTURE
- BT DECK

BOWLINE

- SN A rope, that when hauled in, keeps the weather edge of a square sail taut and steady when a vessel is close-hauled to the wind.
- CL SHIP FITTINGS
- BT RUNNING RIGGING

BOWSPRIT

- SN A spar projecting over the bow of a vessel to provide the means for staying the fore topmast and from w hich the jibs are set.
- CL SHIP STRUCTURE
- BT SPRIT

BOX KEEL

- SN A keel made from plates in the form of a box. The plates being joined by riveting to angles bars.
- CL SHIP FITTINGS
- BT KEEL
- CL SHIP STRUCTURE
- BT KEEL

BOX KEELSON

- SN A keelson made from plates in the form of a box. The plates being joined by riveting to angles bars.
- CL SHIP STRUCTURE

BT KEELSON

BRACE

- SN A rope or w ire attached by a block to a yard arm and used to adjust the yard in a horizontal plane.
- CL SHIP FITTINGS
- BT RUNNING RIGGING

BRACKET KNEE PLATE

- SN A flat plate, triangular in shape, used to join a frame and a beam.
- CL SHIP STRUCTURE

BREADTH RIDER

- SN A additional timber mounted across the breadth of a vessel to strengthen the structure.
- CL SHIP STRUCTURE
- BT RIDER

BREASTHOOK

- SN A curved timber bolted across the inside of a vessel's stem to strengthen the fore part of the vessel and hold the bow and sides together.
- CL SHIP STRUCTURE
- BT LODGING KNEE

BRICK OVEN HOUSING

- CL SHIP FITTINGS
- BT OVEN HOUSING

BRIDGE

- SN An elevated platform above the upper deck of a vessel from w hich it is navigated and from w here all activities on the vessel can be monitored and controlled by the officer of the w atch.
- CL SHIP STRUCTURE
- NT DOCKING BRIDGE
 - NAVIGATION BRIDGE

BRIDGE TELEGRAPH

- SN A device used by the captain or officer of the w atch to communicate w ith the engine room or other parts of the vessel.
- CL SHIP STRUCTURE

BULKHEAD

- SN An upright partition separating compartments within a vessel.
- CL SHIP STRUCTURE
- NT PARTITIONING

BULKHEAD LAMP

- UF Electric Bulkhead Lamp
- SN A lamp fixed to the bulkhead providing internal lighting.
- CL SHIP FITTINGS
- BT LAMP

BULWARK

- SN The portion of a vessel's side above the level of the deck.
- CL SHIP STRUCTURE
- BT SUPERSTRUCTURE
- NT FLOATING BULWARK

BUNK

- SN A sleeping berth.
- CL SHIP FITTINGS
- BT BED

BUNTLINE

- SN A rope attached to the footrope of a square sail used to spill the wind out of the sail for reefing or hoist the sail to the yard for furling.
- CL SHIP FITTINGS
- BT RUNNING RIGGING

BUTT JOINT

- SN A joint in w hich planks or plates are joined end to end.
- CL SHIP STRUCTURE
- BT JOINT
- NT DOWELLED BUTT JOINT

CABLE

UF Anchor Cable Anchor Chain

Chain

- SN Originally any large hemp or w ire rope or chain but now more normally, one to w hich the anchor is secured.
- CL SHIP FITTINGS
- BT CORDAGE

Candle Lantern

USE LANTERN

CANT FRAME

- SN A piece of timber set at an oblique angle rather than at right angles to the keel. Cant frames are found at both ends of the vessel, those at the bows incline toward the stem post and those at the stern incline toward the sternpost.
- CL SHIP STRUCTURE
- BT FRAME

CAPSTAN

- SN An upright cylindrical barrel revolving around a spindle used to wind cable on board ship. The capstan was turned manually by inserting bars into the drumhead at the top.
- CL SHIP FITTINGS
- BT LIFTING GEAR
- NT FORE JEER CAPSTAN MAIN JEER CAPSTAN

CARLING

- SN A short piece of timber ranging fore and aft betw een beams to strengthen the vessel.
- CL SHIP STRUCTURE
- BT FRAMING COMPONENTS

CARVEL PLANK

- SN A plank used in carvel construction, where the edges of the planks are placed edge to edge and not overlapped (as in clinker construction).
- CL SHIP STRUCTURE
- BT OUTER HULL PLANK

CAST METAL OVEN HOUSING

- CL SHIP FITTINGS
- BT METAL OVEN HOUSING

CASTLING

- SN Panels erected around the fighting platforms of a vessel to provide protection.
- CL SHIP STRUCTURE
- BT SUPERSTRUCTURE

NT AFTERCASTLE FORECASTLE

CAT DAVIT

- SN A davit used to hoist the anchor from the waterline to the billboard.
- CL SHIP FITTINGS
- BT DAVIT

CATHEAD

- SN A short beam projecting over the bow of a vessel at the side of the bow sprit. The cathead held a sheave w hich took the tackle used to raise the anchor.
- CL SHIP STRUCTURE
- BT SKELETON

CATHEAD SUPPORTER

- SN A hanging knee used to support the cathead.
- CL SHIP STRUCTURE
- BT HANGING KNEE

CAULDRON

- UF Cauldron Cover Cauldron Lid
- SN A large pot used for boiling.
- CL SHIP FITTINGS
- BT FURNITURE

Cauldron Cover

USE CAULDRON

Cauldron Lid

USE CAULDRON

CAULKING

- SN Fibres driven into the seams of a vessel's timbers and covered with pitch or resin to make the vessel w atertight.
- CL SHIP FITTINGS
- BT WATERPROOFING FITTINGS
- NT HAIR OAKUM

CEILING PLANK

- SN A plank forming part of the floor or walls of a hold.
- CL SHIP STRUCTURE
- BT INNER HULL PLANK

CENTRE LINE LIFT

- CL SHIP FITTINGS
- BT LIFT

CENTREBOARD

- SN A board w hich can be low ered in a shallow draught vessel to increase the vessel's lateral area and keel thus increasing the resistance to leew ay.
- CL SHIP FITTINGS
- BT STABILIZING FITTINGS

Chain

USE CABLE

CHAIN PLATE

- SN A metal bar fixed below the chain wales to which the shrouds are secured.
- CL SHIP FITTINGS

BT FASTENER

CHAIN PUMP

- SN A pump consisting of an endless chain fitted with valves, operated by a roller or winch manned by several men. A chain pump could move large quantities of water in a short time.
- CL SHIP FITTINGS
- BT PUMP

CHAIN WALE

- UF Channel
 - Channel Wale
- SN A broad plank, projecting horizontally from the side of a vessel, used to spread the shrouds and provide better support for the mast.
- CL SHIP STRUCTURE
- BT WALE

CHAIR

- SN A single seat with a back and, sometimes, arms.
- CL SHIP FITTINGS
- BT FURNITURE

Channel

USE CHAIN WALE

Channel Wale

USE CHAIN WALE

CHOCK

- SN A wooden wedge used to prevent any stowed article from shifting w hilst the vessel is in motion.
- CL SHIP STRUCTURE
- BT SKELETON

CLEAT

- SN A bar, made of w ood or metal, attached to the insides of the gunw ales to w hich the sheets are fastened w hen a vessel is under sail.
- CL SHIP FITTINGS
- BT BELAYING GEAR

CLENCHED BOLT

- SN A bolt, the end of w hich has been bent over to secure it once it has passed through the timbers. Predates the threaded bolt.
- CL SHIP STRUCTURE
- BT BOLT

CLENCHED NAIL

- SN A nail, the end of w hich has been bent over to secure it once it has passed through the timbers.
- CL SHIP STRUCTURE
- BT NAIL

CLENCHED SPIKE

- SN A spike, the end of which has been bent over to secure it once it has passed through the timbers.
- CL SHIP STRUCTURE
- BT SPIKE

Clew Line

USE CLUE LINE

CLINKER PLANK

- SN A plank used in the construction of a clinker built vessel w here the planks overlap.
- CL SHIP STRUCTURE
- BT OUTER HULL PLANK

CLOSE STOWING ANCHOR

- SN An anchor with the stock in the same plane as the arms enabling it to be stowed flat on an anchor bed.
- CL SHIP FITTINGS
- BT ANCHOR

CLUE LINE

- UF Clew Line
- SN A rope attached to the clues of a square sail, other than acourse, and used to pull the clues up and inwards when furling the sail.
- CL SHIP FITTINGS
- BT RUNNING RIGGING

CODE FLAG

- SN A flag, usually coloured or patterned, w hich can be used to convey messages using a standard code. Each code flag's pattern or colour is different and can be used to represent a w hole message, or a single w ord or letter in a message.
- CL SHIP FITTINGS
- BT FLAG
- NT CODE PENNANT

CODE PENNANT

- SN A triangular flag, usually coloured or patterned, w hich can be used to convey messages using a standard code. Each code flag's pattern or colour is different and can be used to represent a w hole message, or a single number in a message.
- CL SHIP FITTINGS
- BT CODE FLAG

COMMUNICATIONS EQUIPMENT

- SN Equipment used to communicate from ship-toship, ship-to-shore or ship-to-aircraft.
- CL SHIP FITTINGS
- NT A ERIAL
 - RA DIO
 - TELEGRAPH

COMPANION LADDER

SN Traditionally a ladder leading from the main deck to the quarterdeck. Now adays used to mean any ladder leading from one deck to another.

COMPANION WAY

- UF Companion Way Stairw ay
- SN A staircase or ladder allowing movement between decks.
- CL SHIP FITTINGS
- BT ACCESSWAY

COMPANION WAY COVER

- UF Companion Way Grating
- SN A hatch or grating covering the entrance to a companion way.

Companion Way Grating

USE COMPANION WAY COVER

Companion Way Stairw ay

USE COMPANION WAY

COMPARTMENT

SN Any area, onboard a vessel, between the transverse bulkheads.

- CL SHIP STRUCTURE
- BT DECKS AND COMPARTMENTS
- NT GALLEY

COMPASS

- SN An instrument used for navigation and orientation showing magnetic or true north, and bearings.
- CL SHIP FITTINGS
- BT PILOTING EQUIPMENT
- NT GYRO COMPASS
 - MAGNETIC COMPASS
- RT BINNACLE

COMPOUND RECIPROCATING ENGINE

- CL SHIP FITTINGS
- BT RECIPROCATING ENGINE

CONNING TOWER

- SN The superstructure of a submarine or w arship from w hich the vessel can be piloted.
- CL SHIP STRUCTURE
- BT SUPERSTRUCTURE

CORDAGE

- SN The collective term for all ropes and lines carried on board a vessel.
- CL SHIP FITTINGS
- NT BOLT ROPE

CABLE

CRINGLE

LANYARD

ROBAND

ROPE

COUNTER

- SN The arched section of the vessel curving aft and upw ards from the wing transom and buttock to the stern above.
- CL SHIP STRUCTURE
- BT SKELETON

COUNTER RAIL

SN A rail running around the stern of a vessel.

COURSE

- SN A sail attached to the low er yards. Use more specific term.
- CL SHIP FITTINGS
- BT SQUARE SAIL
- NT BONA VENTURE COURSE

FORE COURSE

MAIN COURSE

MIZZEN COURSE

SPRIT COURSE

COVERING BOARD

- SN A board placed along the top edges of upper hull planking to close the spaces between the inner and outer hull planking between the frames.
- CL SHIP FITTINGS
- BT WATERPROOFING FITTINGS

CRINGLE

- SN A small loop of rope, often with a metal ring or thimble, w orked into the bolt rope of a sail.
 Cringles are used to hook in the tack and sheet tackles w hen a sail is reefed.
- CL SHIP FITTINGS
- BT CORDAGE

CROSS BEAM

- SN A heavy timber running across the bitts in the bows of a vessel.
- CL SHIP STRUCTURE
- BT BEAM (MARITIME)

CROSS PIECE

- SN A bar or timber connecting two bitts or knightheads
- CL SHIP STRUCTURE

CRUTCH

- SN A rising knee fitted in the stern to connect the ends of the stringers and other longitudinal members
- CL SHIP STRUCTURE
- BT RISING KNEE

DAGGERBOARD

- SN A drop keel, usually of w ood or metal, w hich can be raised or low ered through a slot in a vessel's keel to increase the draught in order to reduce leew ay.
- CL SHIP FITTINGS
- BT STABILIZING FITTINGS

DAVIT

- SN A small crane, derrick or pair of curved pillars, usually fitted on the deck close to the side of a vessel, used for raising and low ering lifeboats, anchors etc.
- CL SHIP FITTINGS
- BT LIFTING GEAR
- NT ANCHOR DAVIT

BOAT DAVIT

CAT DAVIT

FISH DAVIT

DEADEYE

- SN A circular block, usually made from lignum vitae, pierced with three holes and grooved around the circumference used to secure the end of a shroud to a chain plate.
- CL SHIP FITTINGS
- BT BLOCK

DEADLIGHT

- SN A hinged plate, usually of brass, iron or w ood, inboard of a ship's scuttle or port, w hich can be low ered and secured w ith a butterfly nut to prevent damage to glass in heavy w eather or conceal internal light from enemy vessels.
- CL SHIP FITTINGS
- BT PORTHOLE LID

DEADWOOD

- SN A block of timber, in both the bow and stern of a vessel, positioned just above the keel where the hull is narrow and the angle of the timbers at its most acute.
- CL SHIP STRUCTURE
- BT FRAMING COMPONENTS

DECK

- UF Decking
- SN A floor running the length of a vessel or only part of it, connecting the sides and forming the roof of the compartments or holds.

- CL SHIP STRUCTURE
- BT DECKS AND COMPARTMENTS
- NT AFTERCASTLE DECK

BOWCA STLE DECK

LOWER DECK

MAIN DECK

MIDDLE DECK

ORLOP DECK

POOP DECK

QUARTER DECK

STERNCA STLE DECK

UPPER DECK

DECK BEAM

- SN A beam running athw artships forming part of a vessel's structure and supporting the deck.
- CL SHIP STRUCTURE
- BT BEAM (MARITIME)

DECK BEAM BRACE

- SN A brace used to support and strengthen a deck beam.
- CL SHIP STRUCTURE
- BT FRAMING COMPONENTS

DECK CLAMP

- SN A timber fastened to the inside of a wooden vessel's side forming a support for the end of a deck beam.
- CL SHIP STRUCTURE
- BT FRAMING COMPONENTS

DECK HOUSE

- SN A cabin erected on the deck of a vessel.
- CL SHIP STRUCTURE
- BT SUPERSTRUCTURE

DECK PLANK

SN A plank forming part of the deck.

DECK PLATE

SN A metal plate forming part of the deck.

DECK TRANSOM

- SN A beam fastened across the stern post to strengthen the stern and give it shape. The deck transom is used to hold the ends of the low er deck planking.
- CL SHIP STRUCTURE
- BT TRANSOM

DECKHEAD LAMP

- UF Electric Deckhead Lamp
- SN A lamp fitted to the underside of the deck above to provide internal lighting in a vessel.
- CL SHIP FITTINGS
- BT LAMP

Decking

USE DECK

DECKLIGHT LAMP

- UF Electric Decklight Lamp
- SN A lamp fitted above head height to provide external lighting on a vessel.
- CL SHIP FITTINGS
- BT LAMP

DECKS AND COMPARTMENTS

- SN The horizontal platforms and internal spaces on board a vessel.
- CL SHIP STRUCTURE
- NT COMPARTMENT
 - DECK

DECORATION

- SN Carved elements and mouldings designed to make a vessel more attractive.
- CL SHIP FITTINGS
- BT ORNAMENTS AND MOULDINGS
- NT BOW DECORATION
 - STERN DECORATION

DERRICK

- SN A spar, fixed on board a vessel and pivoted at the low er end, fitted with a purchase and used like a crane for hoisting cargo and other heavy w eights.
- CL SHIP FITTINGS
- BT LIFTING GEAR

DIAPHRAGM PUMP

- CL SHIP FITTINGS
- BT PUMP

DIMINISHING STRAKE

- SN A plank, forming part of the hull of a wooden vessel, which is thinner at one end.
- CL SHIP STRUCTURE
- BT STRAKE

DOCKING BRIDGE

- SN A bridge from w hich the captain, or officer of the watch, can supervise the docking of a vessel.
- CL SHIP STRUCTURE
- BT BRIDGE

DOOR

- SN A barrier used to close an opening, usually hinged and often hung within a supporting frame.
- CL SHIP FITTINGS
 - BOW DOOR
 - HINGED DOOR
 - SLIDING DOOR

DOORWAY

- SN An opening between two spaces, filled by a door.
- CL SHIP FITTINGS
- BT ACCESSWAY

DOUBLE BLADED PADDLE

- SN A paddle w ith a blade on either end. Usually used to propel a canoe or kayak.
- CL SHIP FITTINGS
- BT PADDLE

DOUBLE BLOCK

- SN A single shelled block containing two sheaves revolving on the same pin, allowing two ropes of equal thickness to be worked through it.
- CL SHIP FITTINGS
- BT BLOCK

DOWELLED BUTT JOINT

- SN A butt joint w hich is fixed using dow els inserted into the ends of the planks.
- CL SHIP STRUCTURE

BT BUTT JOINT

DOWNHAUL

SN A rope used for hauling down a jib or staysail when shortening sail.

CL SHIP FITTINGS

BT ROPE

Electric Bulkhead Lamp

USE BULKHEAD LAMP

BOILER

FURNACE

REACTOR

ENGINE ROOM TELEGRAPH

SN A device by w hich the engine room can communicate w ith the bridge or other parts of the vessel.

CL SHIP FITTINGS

BT TELEGRAPH

ENSIGN

SN The nation flag flow n on a vessel.

CL SHIP FITTINGS

BT FLAG

ENSIGN STAFF

SN The flagstaff on w hich the ensign is flow n.

CL SHIP FITTINGS

BT FLAGSTAFF

ESCUTCHEON

SN The area in the middle of the stern of a vessel w here the name and port of registry are inscribed.

CL SHIP FITTINGS

BT ORNAMENTS AND MOULDINGS

EXHAUST PIPE

CL SHIP FITTINGS

BT ENGINE EXHAUST SYSTEM

EXTERNAL FRAME

SN The main skeleton of a vessel to w hich the outer hull is attached.

CL SHIP STRUCTURE

BT FRAME

EYE BOLT

SN A bolt with an eye in the end to which the blocks of purchases can be hooked or a line secured.

CL SHIP FITTINGS

BT FASTENER

FAIRLEAD

SN A device on a deck or spur, often in the form of a block, used to guide a rope and prevent it from cutting or chafing.

CL SHIP FITTINGS

BT RIGGING FITTINGS

FALSE KEEL

SN An additional keel secured on the outside of the main keel to increse a vessel's draught. In older vessels false keels were also used to protect the vessel's hull in the event of running aground.

CL SHIP FITTINGS

BT KEEL

CL SHIP STRUCTURE

BT KEEL

FALSE STERNPOST

SN An additional timber clamped to the sternpost to reinforce it.

CL SHIP STRUCTURE

BT STERNPOST

FASHION PIECE

SN The aftermost timber in the underw ater body of a wooden vessel which forms the shape of the stern.

CL SHIP STRUCTURE

BT SKELETON

FASHION PLATE

SN The aftermost plate in the underw ater body of a metal vessel w hich forms the shape of the stern

CL SHIP STRUCTURE

BT SKELETON

FASTENER

SN An object to fasten, bind or join one item to another. Use more specific term where known.

CL SHIP FITTINGS

BT RIGGING FITTINGS

NT CHAIN PLATE

EYE BOLT

TURNBUCKLE

FASTENINGS

SN The means by w hich a ship structure is held together. Use appropriate narrow terms.

STAPLE

STITCHING

TRFFNAII

WELD

FENDER

- SN An object, made from old cable, matting, rubber or plastic, which hangs over the side of a vessel to protect it against impact.
- CL SHIP FITTINGS
- BT MOORING GEAR

FIDDLE BLOCK

- SN A single shelled block containing two sheaves carried on separate pins one on top of the other. The low er portion of the shell is narrow er and the w hole lies flatter to a mast than a DOUBLE BLOCK.
- CL SHIP FITTINGS
- ΒT **BLOCK**

FIDDLEHEAD

- A carved stemhead in the form of a scrollturning aft and inwards like the head of a violin. Originally adopted by small sailing vessels with no figurehead as a piece of bow decoration.
- CL SHIP FITTINGS
- **BOW DECORATION** RΤ

FIGUREHEAD

- An ornamental carved and painted figure erected on the bow of a vessel as a decorative emblem. Usually signifying some aspect of the vessel's name or function.
- CL SHIP FITTINGS
- **BOW DECORATION**

FILLET

- A piece of wood used to strengthen a joint or SN serve as a support to a surface.
- SHIP STRUCTURE CI
- RT **SKELETON**

FILLING FRAME

- CL SHIP STRUCTURE
- BT **FRAME**

FILLING PIECE

- A piece of timber forming part of a made mast.
- SHIP STRUCTURE
- **SKELETON**

FILLING TRANSOM

- CL SHIP STRUCTURE
- BT TRANSOM

FIRST FUTTOCK

- SN The timber, closest to the keel, forming part of the frame or rib in a wooden vessel.
- SHIP STRUCTURE CL
- **FUTTOCK** BT

FIRST FUTTOCK RIDER

- SN An additional timber bolted to the first futtock to provide extra strength.
- CL SHIP STRUCTURE
- BT **RIDER**

FISH DAVIT

- A davit used in conjunction with a cat davit to hoist the fluke end of a stocked anchor to the billboard.
- CL SHIP FITTINGS
- DAVIT RT

FLAG

- A piece of cloth, usually flow n from a staff or SN halyard, used as a standard, signal or ensign.
- CL SHIP FITTINGS
- ВТ SIGNALLING EQUIPMENT
- NT CODE FLAG **ENSIGN**

JACK

PENNA NT

SEMAPHORE FLAG

FLAGSTAFF

- SN A pole or staff on which a flag is hoisted.
- SHIP FITTINGS CI
- NT **ENSIGN STAFF**
 - JACK STAFF

FLARE

- SN A device, which when activated, gives off a bright light. Used as a signal.
- CL SHIP FITTINGS
- SIGNALLING EQUIPMENT RT

FLAT HEAD SCREW

- CL SHIP STRUCTURE
- BT **SCREW**

FLEMISH HORSE

- SHIP FITTINGS
- **HORSE**

FLOATING BULWARK

- A section of the bulw ark which is hinged allowing access onto the deck.
- CL SHIP STRUCTURE
- BT **BULWARK**

FLOOR RIDER

- An additional timber used to provide support for a floor beam.
- SHIP STRUCTURE CI
- **RIDER** RT

FLOOR TIMBER

- SN A plank forming part of a deck floor.
- CI SHIP STRUCTURE
- BT FRAME

FLYING JIB

- The foremost of the sails set on a stay extending from the foremast to the jib boom or bow sprit.
- CL SHIP FITTINGS
- JIB

FLYING JIB BOOM

A continuation of the jib boom to the end of w hich the tack of the flying jib is hauled.

CL SHIP STRUCTURE

BT JIB BOOM

FOGHORN

SN A signalling device emitting a loud noise to warn shipping in foggy weather.

CL SHIP FITTINGS

BT SIGNALLING EQUIPMENT

FORE AND AFT SAIL

SN Any sail w hich is rigged so that the luff of the sail abuts the mast or is attached to a stay. The sail can be extended by a boom at the foot and a gaff at the head or by a single sprit or yard.
